With step-by-step instructions and photos, hydroponics and marijuana-growing expert Joshua Sheets shows how to create, build, maintain, and harvest a hydroponic marijuana garden. He even includes information on the best nutrient solutions and breeding plants. Over 25 million Americans are potentially eligible to use medical marijuana based on their diagnoses, yet fewer than 800,000 currently do. As more eligible patients opt for alternative treatment options such as marijuana, a rising amount of medical marijuana will need to be produced to keep up with demand. Most states that permit medical marijuana growing allow the license-holder to grow a certain number of plants for home or medical use. Whether you use marijuana to aid health, especially to alleviate the effects of chemotherapy and other drugs, or, in states where it is legal, as a recreational drug similar to alcohol, Homegrown Marijuana is the perfect

Whether you use marijuana to aid health, especially to alleviate the effects of chemotherapy and other drugs, or, in states where it is legal, as a recreational drug similar to alcohol, Homegrown Marijuana is the perfect book to take control of your own production.
