**Grammar to Get Things Done** - Darren Crovitz - 2016-11-10

CO-PUBLISHED BY ROUTLEDGE AND THE NATIONAL COUNCIL OF TEACHERS OF ENGLISH Grammar to Get Things Done offers a fresh lens on grammar and grammar instruction, designed for middle and secondary pre-service and in-service English teachers. It shows how form, function, and use can help teachers move away from decontextualized grammar instruction (such as worksheets and exercises emphasizing rule-following and memorizing conventional definitions) and begin considering grammar in applied contexts of everyday use. Modules (organized by units) succinctly explain common grammatical concepts. These modules help English teachers gain confidence in their own understanding while positioning grammar instruction as an opportunity to discuss, analyze, and produce language for real purposes in the world. An important feature of the text is attention to both the history of and current attitudes about grammar through a sociocultural lens, with ideas for teachers to bring discussions of language-as-power into their own classrooms.

**Latin by the Natural Method** - William Most - 2015-11-30

From the Preface: Most Americans who have studied Latin, with our priests and seminarians included, have employed this method, which they thought was 'traditional'. But as something fully developed, this tradition scarcely goes farther back than 1880; and even in its beginnings it hardly antedates the seventeenth century. In contrast to this method of grammatical analysis, Father Most's textbooks reproduce much of the "natural method" by which children learn their native language. Hence, the significance of Father Most's books is manifestly great for the Latin classes in any Catholic high schools or colleges. So much of our Catholic doctrine and culture have been deposited in Latin that we want many of our educated Catholics to be able to use Latin with ease. But the special significance of Father Most's texts is for the Latin classes in our seminaries. Here the students still have much the same cogent motives to master the art of using Latin with ease as the pupils of the thirteenth or sixteenth century. They need it as an indispensable means of communicating thought in their higher studies, and afterwards throughout life. The objectives (knowledge about Latin and training of mind) and corresponding methods (grammatical analysis and translation) "traditional" since 1880 have taken over in our seminaries; and there too the students have been experiencing an ever growing inability to use Latin. Father Most's textbooks can contribute much towards revolutionizing the teaching of Latin by bringing back, as the chief objective, the art of reading, writing, and (when desired) speaking Latin with ease." Fr. Most's textbooks can be classed in categories of similar texts, such as Hans Ørberg's Lingua Latina, as well as Ecce Romani which is a simplification of Ørberg or others which aim to teach Latin not even so much as a modern language, as to teach it by a method more natural to the philosophy of learning Languages. Fr. Most's text follows the view that Latin of the later period is actually more advanced in communicating ideas and is easier to learn than Latin of the classical period, and thus this Second Volume begins the transition with readings and vocabulary from the Vulgate, continuing with the more ancient collects of the 1962 Missale Romanum, St. Cyprian and culminating with a reading from the Roman Historian Sallust. This is an excellent text applying the "natural method" with English language instruction to help the student read and understand Latin natively, with numerous vehicles for simplifying the necessary memorization as well as aiding in truly understanding Latin without constant need to look in a dictionary for

that edition.

**Grammar Matters** - Lynne R. Dorfman - 2014-09-01

If you are a teacher of grades K-6, you might be asking, "Should I teach grammar in my class on a daily basis? How would I go about doing this? And how can I teach grammar so it isn't boring to my kids?" In Grammar Matters, Lynne Dorfman and Diane Dougherty answer these questions and more. Using mentor texts as the cornerstone for how best to teach grammar, this book provides teachers with almost everything they need to get kids not only engaged but excited about learning grammar. Divided into four parts--Narrative Writing, Informational Writing, Opinion Writing, and Grammar Conversations--this hand reference provides practical teaching tips, assessment ideas, grammar definitions, and specific mentor texts to help students learn about parts of speech, idioms, usage issues, and punctuation. Through "Your Turn Lessons," conversations, conferences, and drafting, revising, and editing exercises, students will learn not only specific concepts but also how to reflect upon and transfer what they have learned to other writing tasks, no matter the subject. The "Treasure Chest of Children's Books" provides an extensive list of both fiction and nonfiction books that fit naturally into grammar instruction. Eight appendices provide even more resources, including information on homophones, using mentor texts to teach grammar and conventions, checklists, comma rules, help for ELL students, and a glossary of ramar terms. Grammar Matters links instruction to the Common Core State Standards and features quality, classroom-tested tools that help teachers provide their students with the gifts of grammar and literacy.

Through "Your Turn Lessons," conversations, conferences, and drafting, revising, and editing exercises, students will learn not only specific concepts but also how to reflect upon and transfer what they have learned to other writing tasks, no matter the subject. The "Treasure Chest of Children's Books" provides an extensive list of both fiction and nonfiction books that fit naturally into grammar instruction. Eight appendices provide even more resources, including information on homophones, using mentor texts to teach grammar and conventions, checklists, comma rules, help for ELL students, and a glossary of ramar terms. Grammar Matters links instruction to the Common Core State Standards and features quality, classroom-tested tools that help teachers provide their students with the gifts of grammar and literacy.

**Air Force Cop: An Autobiography** - Kelly D. Harrison - 2019-09-10

Air Force Cop An Autobiography By: Kelly D. Harrison The enforcement of law in the US Armed Forces is covered by the Uniform Code of Military Justice and, when applicable, Title 18 of the US Code. There are other regulations and directives that can result in punitive action. The US Armed Forces is a US taxpayer funded enterprise with the US Army and US Navy almost as old as the nation itself. Crimes against property in the armed forces are not like that of breaking into a privately owned jewelry store in New York City, since all property "owned" by the military branches is property of the US Government. Military members and others who damage, destroy or steal

property of the US Government and fellow military members are dealt with harshly. This includes those military members and civilians who commit murder, rape, acts of serious bodily injury and other "index crimes" such as auto theft, arson, kidnapping, etc., within the jurisdiction of the federal government. The US Armed Forces have several consolidated confinement facilities and the US Disciplinary Barracks at Ft. Leavenworth, Kansas. Each military branch has their own police and investigative agencies for dealing with crimes against property and people. In the US Air Force, there are the Security Forces (previously known as Air Police and Security Police) for protection of base resources, traffic control enforcement and investigation of misdemeanor offenses. The Air Force Office of Special Investigations (AFOSI) is a cadre of enlisted, officer and civilian special agents (all with Federal Law Enforcement Officer status) who are highly trained in specialties such as forensics, fraud, counter-intelligence, polygraph, computer crimes, electronic technical support (hidden cameras, electronic sweeping for covert recording devices, etc.) and general crimes such as arson, homicides, child abuse along with every other imaginable offense against property and people.
